Digital Portfolio

STUDENT NAME: V.Anandhavalli
REGISTER NO AND NMID: 222402523 and asunm161222402523
DEPARTMENT: Computer science
COLLEGE: COLLEGE/ UNIVERSITY: Prince Shri Venkateswara arts andscience College/ Madars University

PROJECT TITLE

Digital portfolio using front end Web development

AGENDA

1.Problem Statement
2.Project Overview
3.End Users
4.Tools and Technologies
5.Portfolio design and Layout
6.Features and Functionality
7.Results and Screenshots
8. Conclusion
9.Github Link

PROBLEM STATEMENT

Intoday'sdigitalera, showcasing skills, achievements, and projects effectively has become essential for students and professionals. Traditional resumes and offline methods often fail to highlight an individual's creativity, technical abilities, and personal brand. This creates a challenge in standing out among peers and reaching potential employers, collaborators, or academic institutions. Therefore, there is a need for a structured, visually appealing, and accessible digital portfolio that demonstrates one's work, skills, and accomplishments in a professional thing

PROJECT OVERVIEW

This portfolio project is designed to present my academic background, skills, and achievements in a structured and creative way. It highlights my projects, problem-solving abilities, and technical expertise while serving as a personal platform to showcase my growth and career aspirations.

WHO ARE THE END USERS?

The end users of this portfolio include recruiters, employers, academic institutions, mentors, and collaborators who are interested in evaluating my skills, projects, and achievements. It can also serve as a reference for peers, colleagues, and potential clients who wish to understand my expertise and professional journey.

TOOLS AND TECHNIQUES

The portfolio was developed using a combination of modern web technologies and design practices. The primary tools and techniques include:

HTML5 & CSS3 – for structuring and styling the portfolio layout.

JavaScript – to add interactivity and enhance user experience.

Responsive Design – ensuring compatibility across devices and screen sizes.

Version Control (Git/GitHub) – for tracking changes and managing the project.

POTFOLIO DESIGN AND LAYOUT

The portfolio is designed with a clean, structured, and user-friendly layout to ensure easy navigation and accessibility. A sidebar or top navigation bar provides quick access to different sections such as About Me, Skills, Projects, and Contact. The use of consistent color schemes, typography, and spacing creates a professional and visually appealing look. The layout is also responsive, adapting seamlessly to desktops, tablets, and mobile devices. Emphasis is placed on simplicity and clarity so that the content remains the main focus for recruiters and viewers.

FEATURES AND FUNCTIONALITY

About Me Section – Provides a brief introduction and personal background.

Skills Showcase – Highlights technical and soft skills in a structured manner.

Projects Display – Showcases completed projects with descriptions and outcomes.

Responsive Design – Ensures smooth viewing across desktops, tablets, and mobiles.

Contact Section – Allows recruiters or collaborators to connect easily.

Downloadable Resume (optional) – Provides quick access to a detailed CV.

RESULTS AND SCREENSHOTS

V. Anandhavalli

Student | Web Developer | Learner

About   Skills   Projects   Contact

About Me

Hi! I am V. Anandhavalli, a Computer Science student passionate about building web applications, solving problems, and learning new technologies.

My Skills

HTML & CSS

JavaScript

Python

Git & GitHub

Projects

Portfolio Website

A personal portfolio website using HTML and CSS.

Calculator

A simple calculator built with HTML, CSS, and JavaScript.
